

Future-Proof Roadmap: Scalable AI MVPs & Benchmarks

Roadmap Milestones

- **Q4 2025: Foundation MVPs**
 - Voice checklists + EHR scheduling automation Initial
 - KPI insights dashboard release
 - Data bot wrappers for top 3 hospital APIs
- **Q1 2026: Enhanced Capabilities**
 - Video detection & anomaly identification
 - Research annotations for clinical trials
 - Multi-agent parallel processing system
- **2027: Enterprise & Government Scale**
 - Full NIH & VA research integrations
 - Telesurgery assistance capabilities
 - Multi-hospital system orchestration

Benchmark Targets

Metric	Target	Timeline
Inference Accuracy	90-95%	Q1 2026
System ARR	\$8-10M	Q4 2026
Readmission Reduction	15-20%	Q2 2026
Research Productivity	+35%	2027
ROI for Hospitals	300-500%	Year 2

Voice-First MVPs

Q4 2025 Launch

Voice checklists reduce errors by 20%,
auto-coding by 40%

Video Analytics

Q1 2026 Launch

Procedure verification with real-time alerts,
8-10fps processing

Research Platform

2027 Full Launch

\$3-5M ARR from research extensions and
NIH/VA partnerships
