

AI Automations & Insights: Standout Use Cases

High-Impact Use Cases

Use Case	Integration	ROI Impact
Voice-Driven Op Notes Real-time dictation with AI error correction	EHR + Coding Engine	40% Time Savings
Video Event Validation Surgical procedure verification with YOLO	OR Systems + Insights	25% Error Reduction
Auto-Triaged Follow-ups Risk-based scheduling automation	EHR + Reporting	35% Better Outcomes
Research Analytics Automated clinical trial candidate identification	Bot Systems + KPI	50% Faster Enrollment

Impact vs. Feasibility Analysis

12+

Unique Use Cases
Validated with hospital stakeholders

4 Weeks

Time-to-Deploy
For initial use case implementation

Key Benefits

- ✓ 20-30% operational efficiency
- ✓ Reduced medical errors
- ✓ \$1M+ annual savings
- ✓ 90% user satisfaction
